

ESFERA SMALL SCONCE

KWWS19927N

General Product Information

Safety Information

SAVE THESE INSTRUCTIONS!

CAUTION-RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

USE MINIMUM 90°C SUPPLY CONDUCTORS.

Turn off electrical current at the source before working with any lighting fixture or portable lamp.

Install and use this product in adherence with local electrical codes and regulations.

INSTRUCTIONS

I. Preparing the Fixture

1. Remove the mounting plate from the fixture body.
2. Install the mounting plate to the junction box.

II. Wiring the Fixture

1. Safety first! Locate the circuit breaker and switch it off to cut off the power supply to the relevant circuits to ensure there's no electricity running through the wiring.
2. In accordance with local electrical codes, connect the fixture ground wire (bare copper or silver wire) to suitable ground. This may be a green ground screw on the mounting plate or a house wire (green or bare copper wire without insulation).
3. Adjust the length of the wires using a wire stripper/cutter, if necessary.
4. Twist the bare ends of the following pairs of wires together using a wire nut to secure a connection:
 - a) White fixture wire (square and/or rigid) to the neutral power line wire
 - b) Black fixture wire (round and/or smooth) to the hot power line wire
5. Carefully tuck all wires into the junction box.

III. Installing the Fixture

1. Screw the mounting plate to the fixture body.
2. Insert bulbs into the sockets, and then install the glass frames. Turn on the power. **Please note: be careful when installing the glass frames as the glass can easily scratch the frames if they rub up against each other.**
