

Triumph® High Back Multi-Tilter (3650-3)

Triumph offers active ergonomics in an Executive Task Chair with lumbar support that adjusts both horizontally and vertically.

- Additional features include a seat depth adjustment to accommodate the length of your thighs.
- Choose from two back heights that each offer an infinitely adjustable seat angle and a sliding seat depth adjustment.
- Standard arms are height adjustable with an articulating armpad. Armcaps slide forward, rearward and inward.
- Lumbar adjustment knob can be rotated horizontally or vertically to adjust both lumbar support and back height.
- Triumph offers ultimate capabilities in ergonomic adjustments.
- Frame is standard in polished aluminum with an arched aluminum base.
- Polished aluminum back trim complements the aluminum finish and highlights the adjustable lumbar support.
- Designed by Zooley Chu.

Dimensions: W26 x D25 x H46.5 IN.

ergonomic features:

Tension Adjustment

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

Chair Tilt Lock

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position (can be either single position or infinite style).

Seat Height

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

Back/Lumbar Height

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

Seat Depth

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

Seat Angle Adjustment

Forward and/or rearward. Allows chair to tilt forward and/or rearward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

Back Angle

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

Arm Height

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

Waterfall Seat Edge

Reduces pressure at the back of the knee, contributing to good blood flow.

Properly Contoured Cushions

Support the body effectively, allowing you to sit longer without discomfort.

Width Adjustable Arms

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

Center-Tilt Movement

Chair tilts from a pivot point under the center of the seat allowing you to rock. When your feet are well supported, blood flow is enhanced.

Lumbar Depth Adjustment

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumbar area.
