

ASHTON

The Ashton youth collection is a unique blend of style elements that give a modern bohemian vibe. Details such as thick framed drawer fronts, shaped feet and plank details on beds all blend well. Features can be found through the group, such as touch lighting on beds and a cool bookcase headboard with shelf storage on the sides of the headboard. The Bleached Linen finish on White Oak veneers offers a subtle tone that allows the grain patterns to show through. Brushed Nickel hardware completes each piece.
