 BASE ARM BACK

For pieces where a style code does not apply (such as arm styles on armless pieces), enter "0" in that position. For example, an Ottoman SKU (item #40) with a skirt would be written as 5100-40. Only the Base Style Code and the Item Number are needed because Arms and Backs do not apply in this case.

NAILHEAD OPTIONS

The 5000 series is not standard with nailhead, however it is an option. If nailhead is selected, it will be applied in the format shown below. Nailhead will be applied to the bottom of the baseband, as long as there is no skirt. It may be applied to the Panel Arm only, as the other arms cannot accept nailhead.

TRACK ARM: Subtract 2" PER ARM from overall frame length. Inside length does not change.

LOOSE PILLOW BACK: Add 1" to overall depth and overall height for pieces with loose pillow backs. Seat depth does not change.

VELCRO

Leather styles feature velcro on the back side of the loose pillow backs. This method keeps the back cushions in place, as leather has a tendency to be slippery, causing them to slide down over the seat cushion.
